Profile

Full-Stack Developer and BCA Graduate with a strong foundation in logical problem-solving. Proficient in building responsive web and mobile applications using React, Node.js, and React Native. Dedicated to write clean and maintainable code that solves practical business problems and delivers great user experiences.

Education

Atmiya University, Rajkot

Bachelor of Computer Applications

June 2023 – May 2026

CGPA: 9.74

Tech Skills

Languages: JavaScript, C, HTML/CSS, Bash, PHP, Python, Java

Databases: MySQL, MongoDB

Frameworks & Libraries: React, Node.js, Express.js, React native/Expo

Tools & Version Control: VS Code, Android Studio, Git, GitHub

Projects

Weather App

Feb 2025 – Feb 2025

Tech Stack: HTML5, Bootstrap 5, CSS, JavaScript, RapidAPI

- A Responsive Web Application, **My-Weather-App**, leverages **Bootstrap 5** for its user interface and integrates with a **third-party API (RapidAPI)** to deliver real-time weather information, demonstrating strong front-end development skills.
- JavaScript (for API calls), delivering an intuitive user experience with comprehensive weather details.

Library Management System

March 2025 – March 2025

Tech Stack: HTML, CSS, Bootstrap, PHP, MySQL

🌐 GitHub 🌐 Live

- Created a user-friendly Library Management System in a hackathon setting to streamline book search and organization.
- Built with PHP, MySQL, and Bootstrap, it offers a robust solution for managing library resources.
- Feature user authentication (login/logout), book availability checks, search, category browse, view reports and analytics, read books online, file complaint, profile section, view issued books and an Admin panel to manage.

Tradly – Smart Business Management

Nov 2025 – Dec 2025

Tech Stack: React Native/Expo, Node.js, Express, MongoDB, Multer

🌐 GitHub 🌐 apk

- A smart business management app featuring AI insights, PDF invoice generation, sending email invoices, and real-time inventory tracking.
- Created RESTful API server for the Tradly mobile application using Node.js and Express.js.
- The intelligent backbone of the Tradly app. Features AI-driven business analytics, reports and charts, download report in pdf, file a complaint, edit profile.
- Generates professional invoice PDFs server-side, send invoices and payment reminders instantly.

Experience

Future Interns

July 2025 – August 2025

Full Stack Web Developer

- Detail-oriented Full-Stack Web Developer intern candidate with a strong foundation in web development principles.
- Key projects include a personalized portfolio and a fully functional mini e-commerce site.
- Adept at transforming design concepts into interactive web solutions and managing server-side and databases.
- Committed to continuous learning and ready to contribute as a Full-Stack Web Developer.
